RE: CC Docket Nos. 96-45 and 97-21,

Appeal of USAC Administrator's Decision on Appeal – Funding Year 2001-2002, dated October 21, 2002

Federal Communications Commission Office of the Secretary 445 – 12th Street, SW Washington, DC 20554

To Whom It May Concern:

Subject: Appeal of USAC Administrator's Decision on Appeal – Funding Year 2001-2002,

Cherry Creek School District 5, Form 471 Application Number: 226427, Billed Entity Number: 142140

Funding Request Numbers 524115, 526362 and 526468

Cherry Creek School District ("the District") is appealing the Administrator's Decision on Appeal regarding the funding decision of the SLD for the above referenced FRNs on the basis that the SLD incorrectly applied documentation requested of, and provided by, the District, and the District is now being penalized due to the failure of an SLD staff person to adequately document what had been requested of the District by way of support for the referenced funding requests.

Our original appeal was based on PIA's requesting copies of bills for three FRNs, containing 46, 48 and 72 Qwest billing numbers. In discussion with PIA it was agreed that samples of 12 bills for each FRN would be provided, with the balance to be sent if needed. It was hoped this compromise would avoid the effort and expense associated with making copies of, and sending, this large number of pages to SLD. Unfortunately, from our perspective, funding for each FRN was granted for only the 12 billing numbers whose bills were submitted to PIA, as SLD handled the request as if these 36 billing numbers reflected our total request for these FRNs.

The Administrator's Decision states: " . . . there is no indication that PIA requested a mere sampling of bills or indicated that said sampling would be sufficient documentation to validate the dollar amount requested. There is no indication on your response that the information provided was a sample of the bills." We admit that perhaps we should have indicated in our cover memo that this was just a sampling for the three FRNs in question, but, at the time, our conversations with PIA were fresh in our minds and the need for such detail was not realized. In any event, our conversations with PIA were clear, that in an attempt to keep from having to pull 130 additional bills from storage, make copies of them, and send the additional 260 pages to SLD, PIA would try to work from the 36 bills (72 pages) provided for the 3 FRNs on appeal. At this late date, it appears that PIA's failure to document that we had discussed at length the issue of a sampling is now penalizing the District by the resulting reduction in our funding requests.

We have enclosed copies of our original appeal to the SLD (dated November 12, 2001), including our original Form 471 attachment with those billing numbers for which we submitted bills highlighted in red, and the resulting Administrator's Decision on Appeal (dated October 21, 2002).

No. of Conies rec'd C
List ABCDE

In summary, our appeal, based on the items discussed above, is for reinstatement of our initial requested funding, based on our submitted Form 471, for the three FRNs indicated. Thank you for your consideration of our appeal.

Re: Billed Entity Number

142140

471 Application Number:

226427

Funding Request Number(s):

524115: 526362<u>: 52</u>6468:

Your Correspondence Dated:

November 12, 200h & se

After thorough review and investigation of all relevant step site Set of Division ("SLD") of the Universal Service Administrative Continues its decision in regard to your appeal of SLD's Vear contention for the Application Number indicated above. This letter explains its decision. The date of this letter begans the South amenered (continues to the Federal Communications Commission) SC (2) at 8 your series more than one Application Number; please note that for each appeal appeal is submitted, a separate letter is sent

Funding Request Number:

524115 526362 526468

Decision on Appeal:

Denied in full

Explanation:

In your correspondence, you appeal the FRN modification for the factation feel bills submitted were a sample of the total FRN, and they were incorrectly applied to the FRN. You also state through conversations with PIA, a sampling was to be forwarded, and agreed that 12 bill copies would suffice and that after review, if additional documentation was necessary it would be requested at such time. Furthermore your correspondence states that although ineligible charges were listed in the bills, they were not included in the funding request calculations and examples are cited. You request that the FRN's be increased to reflect the full request. A copy of your Item 21-1 originally included in the application was attached to your correspondence.

Program rules state that all documentation thust be specific and sufficiently detailed to substantiate the requests: If the original Item 21 documentation is insufficient, an opportunity is given for additional information to be submitted to support the funding requests. On July 25, 2001 PIA requested additional documentation to validate the dollars requested. On August 16, 2001 woll sent "copies of bills for each FRN" to the reviewer. Upon review of the correspondence and the documentation forwarded, there is no indication that PIA requested a mere sampling of bills or indicated that said sampling would be sufficient documentation to validate the dollar amount requested. There is no indication on your response that the information provided was a sample of the bills. The request was reduced to reflect the dollar amounts supported by the requested documentation. The appeal is denied.

RE: FCDL, Funding Year 4, dated October 31, 2001

Letter of Appeal Schools and Libraries Division Box 125 — Correspondence Unit 80 South Jefferson Road Whippany, NJ 07981

To Whom It May Concern:

Subject: Appeal of Funding Commitment Decision,
Cherry Creek School District 5,
Form 471 Application Number: 226427,
Billed Entity Number: 142140
Funding Request Numbers 524115, 526362 and 526468

Cherry Creek School District ("the District") is appealing the funding decision of the SLD for the above referenced FRNs on the basis that the SLD incorrectly applied documentation requested of, and provided by, the Cherry Creek School District. The specific text of the Funding Commitment Decision Explanation, we believe captures the heart of our appeal, is the statement "The estimated monthly charge was changed to reflect the doc. provided by the applicant." Our appeal is based on the following facts.

During the course of extended discussions between Mr. Stan Massey of the District and Mr. Keith English, PIA, Mr. English requested the District provide him a SAMPLE of bills for the referenced FRNs. As can be seen from a review of the Form 471 Block 5 Attachment # 21-1, included with the District's original Form 471 filing and attached herewith for reference, these three (3) FRNs referred to 46, 48 and 72 Qwest Billing Numbers, respectively. In response to Mr. English's request for samples of our bills he was provided with copies of 12 bills for each FRN (these billing numbers are shown in red on the attachment). This number was arrived at through discussion with Mr. English, and he indicated he believed a sample of this size would be sufficient for his needs. If he then required copies of bills for all of the billing numbers involved he would contact Mr. Massey with that request. Such a request was never made.

In reviewing the Funding Commitments it appears they were made based SOLELY on the 36 bill copies provided, and no funding was provided for the additional 130 billing numbers included in the District's From 471 request for these three FRNs. Based on this apparent omission, we believe the Funding Commitment for these FRNs should be increased to reflect our full request.

In addition to the omission of the 130 billing numbers from our funding commitment reductions were made for "the ineligible service, late pay. charges and call answering service", "the ineligible service Custodial Mntc. Line and late payment charges" and "the ineligible service, late payment charges". We request that the charges we originally submitted on our Form 471 be accepted as submitted, because the charges referred to above were not included in our original request. Examples of this abound in the sample of bills submitted;

Page 2 November 12, 2001

FRN 524115, billing number 690-9050, our request showed monthly charges of \$152.66. On the bill submitted, the Monthly Service for the period is \$194.25, significantly above the requested amount.

FRN 526468, billing number K690-0379, our request showed monthly charges of \$1,200. The bill submitted, reflects a Monthly Service of \$1,252.15, again, above the requested amount.

At the time we submit a request for reimbursement (via the BEAR form) we request reimbursement for only covered charges. Due to the month-to-month variations in our billing amounts it is difficult, if not impossible, to evaluate discount amounts, ineligible services, etc., from a single bill for any one of our circuits.

In summary, our appeal, based on the items discussed above, is for reinstatement of our initial requested funding, based on our submitted Form 471, for the three FRNs indicated. Thank you for your consideration of our appeal.
